

# LO, HAO CHENG JACKY

"Solving the root problem" is my development value. I believe that it could bring the best performance to the application. Graduated from Interactive Media in PolyU enhanced my UX perspective in developing the website. Keep on learning in my spare time to magnify my vision in different programming skills and modern web standard.

## WORKING EXPERIENCE

### Present Developer, Fitch Hong Kong

- Main developer for K11 Musea Mall and Klub11 Website
